STUDIO HANNES WETTSTEIN

# FORMPARK MINI

Small surface, big impact

Together with Studio Hannes Wettstein, Bauwerk is continuing the Formpark success story – this time in a smaller format. Formpark Mini encourages architectural creativity and individual design on smaller surfaces – at a very attractive price. Formpark Mini and its big brother share the fascinating, unconventional look created by individual installation and lighting that the parquet adds to any room.

# PRODUCT RANGE

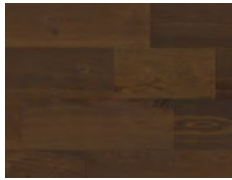

All Formpark Mini parquet elements are deep brushed, nature oiled and quadruple bevelled. Left and right elements that allow for different installation patterns are available for all products. One Formpark Mini element measures 380 mm in length, the other 570 mm. Both elements are 190 mm wide.

# INSTALLATION

Our Parquet Worlds and installation partners look forward to assisting you in planning your individual Formpark Mini installation. You can find your nearest Parquet World and installation partner in the 'Showroom' section on our website at [www.bauwerk-parkett.com](http://www.bauwerk-parkett.com). Further helpful tips and advice is available at [formpark.bauwerk.com](http://formpark.bauwerk.com)

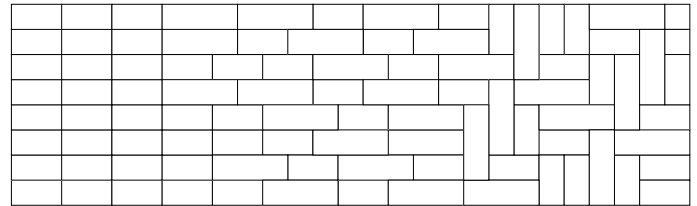

---

# SEAMLESS TRANSITIONS

Together with Studio Hannes Wettstein, Bauwerk has installed three different Formpark floors in an apartment on the 16th floor of a tower block. The interplay between pattern and light reinforces the character of the individual rooms. Thanks to the diversity of Formpark and Formpark Mini, fascinating transitions from one floor typology to another can be designed.
